Honorable Andrew Cuomo
Governor of New York
State Capitol
Albany, NY 12224

Dear Governor Cuomo:

Last week, the Governor of Illinois and the Illinois State Police took a critical step towards protecting the rights of their immigrant communities by terminating the state's Secure Communities (S-Comm) Memorandum of Agreement (MOA) with Immigration and Customs Enforcement (ICE). Through this action, no police in Illinois will share fingerprints with ICE—no new counties will be activated and counties that have S-Comm currently operating will be deactivated. We commend Illinois for taking this action.

Given New York's immigrant heritage and our leadership role in the nation, we firmly believe that our State, too, must immediately end this destructive program. Many of us have joined dozens of organizations in New York over the past year in raising a wide range of concerns about S-Comm and calling for an end to our State's participation in the program. It is critical that New York now join Illinois to show that stopping S-Comm is both necessary and doable.

Like us, Illinois felt that there was no choice but to completely withdraw from S-Comm. In his letter to ICE, Governor Pat Quinn pointed to **"the conflict between the stated purpose of Secure Communities and the implementation of the program."** It could not be more clear that this program serves as a dragnet for ICE to meet its draconian deportation quotas. In Illinois, less than 20% of the people ICE deported due to S-Comm were convicted of a serious crime. ICE statistics for New York show that the vast majority (approximately 80 percent) of those detained by ICE because of S-Comm were never convicted of a crime. Even more importantly, S-Comm undermines the critical work we all have undertaken for so long to protect due process, end racial profiling, restore trust in the police, and stop unfair deportations.

Especially at a time of increasing recognition of the terrible problems posed by S-Comm, we cannot afford to continue to let our immigrants get dragged through ICE's deportation machinery. Just last week, U.S. Congresswoman Zoe Lofgren, joined by U.S. Senator Robert Menendez, put a spotlight on the problematic S-Comm program, calling for "thorough investigations [of ICE] into any misconduct, including possible violations of criminal law."

As a state that is proud of its tradition of upholding and protecting civil, immigrant, and human rights, we must stop S-Comm in New York. With 24 of our 62 counties already activated, we have no time to lose. We look forward to working with you to immediately terminate our S-Comm MOA in order to truly make New York a state that protects the rights of all communities.

Sincerely,

José Serrano
